Experience

UI UX Designer - Parapxl (Independent Contractor) 2018 - Present

- Organized, tailored, and moderated local and virtual user testing sessions based on personas and use cases.
- Designed mock-ups for potential and existing clients to show how our applications would look if integrated into their systems.
- Produced style guides and web/CSS/interaction specification sheets for engineers.
- Designed and generated fully-interactive HTML prototypes and click-throughs which were used for client presentations, mock-ups, as well as user-testing studies.

Front End Developer - Arrivement 2018 - Present

- Wrote application level JavaScript functionality to perform client side validation.
- Knowledge of flux architecture in ReactJS for building client side web application.
- Knowledge of rendering large data sets on the application view using ReactJS
- Experienced in React JS and working with Redux architecture.
- Involved in all the stages of Software Development Life Cycle (SDLC) including Requirements, Analysis, Implementation, Integration, Testing and development and worked in different types of SDLCs like Agile (scrum), waterfall.

Design Engineer - AA Security LLC 2016 - 2018

- Implemented a planning system using the traveling salesman algorithm, saving the company 10,000s in wasted wire cost per year.
- Improved customer and employee experience, by creating new standards for operating procedures and installation protocols.
- Creating marketing strategies bringing in new clients and revenue streams.

Project Manager - Aircraft Windshield Company 2008 - 2016

- Managed the company's largest account, involving production planning, organizing work flow, quality control, lean scrum and agile process.
- Worked on projects with such companies as SpaceX, NASA, Boeing, Tesla, Honda, Disney, and Dreamworks.

Other Experience

Mentor - Operation Code 2018 - Present

- A non-profit helping the military community learn software development.
